Subject: Diebold voting machines

I would like to register a complaint in reference to the use of Diebold black box voting machines. This issue WILL be brought to public attention and the public will not allow the fraud that is being perpetrated. These machines and the history of Diebold is reeked with illegal business practices. In the state of California, it is necessary to uphold a fair, safe, and legal voting machine system. This is a vital aspect of democracy. Do not partner with Diebold! They have proven to be dis-reputable.

A very concerned voter!
